

Black Gator® Bypass Swivel Lift Nubbin

The Black Gator® Swivel Lift Nubbin allows handling of flush joint casing and tubing in an Electric Submersible Pump (ESP) bypass system. It has a pin thread to mate with the corresponding thread on the casing or tubing. A 4.75-ton swivel allows single joints to be lifted with the tugger line or crane, without the need for single joint elevators.

FEATURES

- Lightweight
- Available in tubing and casing sizes from 2-1/8" upwards
- Swivel hoist to allow make-up of tubing/ casing
- Elevator shoulder for picking up string weight or used as a stop shoulder when using slip-type elevators

SPECIFICATIONS

- 4.75-ton SWL swivel hoist ring
- Elevator shoulder rating dependent on thread size, thread type, grade, and tubing/casing weight

Part Number	SWL	Tubing Thread
SLN-2875-01	4 ton	2-7/8" 6.4# F2J pin
SLN-2375-01	4 ton	2-3/8" 4.6# F2J pin
SLN-2125-01	4 ton	2-1/8" 2.4# F2J pin
