

## Black Gator® Flush Joint Casing Clamp

The Black Gator® Flush Joint Casing Clamp is used where space is at a premium and flush joint casing is required. The clamp grips the cables or service lines to the body of the casing. Internal teeth on the clamp provide a grip on the casing to prevent the clamp from slipping.

### FEATURES

- For flush joint casing where space is limited

---

- Internal teeth for gripping the clamp to the casing

---

- No stop collars required

---

- Grips and protects cable or service lines

---

- Precision investment casting

---

- Lightweight and robust

### SPECIFICATIONS

- Low alloy steel or 13Cr equivalent investment casting

---

- Inconel 718 fasteners

---

- Load capacity up to 14 tons

Part Number	Casting Size (in.)	OD (in.)	Cable Size (mm)
