

Black Gator® Tailpipe Nipple Assembly

The Black Gator® Tailpipe Nipple Assembly is typically made up directly below the pod bottom crossover assembly. The nipple profile allows a standing valve to be temporarily set. The pod casing can then be pressure tested prior to installing the electrical submersible pump (ESP) inside the pod. A 6 ft. tubing pup joint is made up to the nipple to serve as a handling sub. The handling sub allows the Black Gator® Tailpipe Nipple Assembly to be picked up and made up to the completion string.

FEATURES

Nipple sizes matched to the tubing
 Thread connections to meet customer requirements
 Box x Pin configuration

SPECIFICATIONS

Low alloy steel or 13Cr material options
 API 5CT

Part Number	Tubing Size (in.)	Thread (in.)	Nipple Size (in.)
